

已发表的论著（不包括教学研究论文）目录

1. 二元连续周期函数用其 Marcinkiewicz 型平均强一致逼近的估计,
北京师范大学学报(理科) 1981, No. 1, 7--22
2. 多重 de la Vallee-Poussin 方形余项的估计, 数学年刊, 3(1982)6:789--802
3. 多重 Fourier 级数的线性求和, 北京师范大学学报(理科) 1983, No. 2, 1--12
4. 二元连续周期函数用其 Fourier 级数的 Marcinkiewicz 型线性平均逼近(与罗俊波合作),
北京师范大学学报(理科) 1984, No. 1, 37--48
5. 二元周期函数用其 Marcinkiewicz 型 Cesaro 平均逼近与绝对求和,
数学年刊, 5A(1984)2:133--152
6. (H, q) summability of Marcinkiewicz type of double Fourier series and their
conjugate series, 数学学报, 27(1984)6:811--816
7. 多重共轭 Fourier 级数的 (C, 1) 求和, 科学通报, 1984, 24:160--165
8. (C, 1) summability of multiple conjugate Fourier series,
KEXUETONGBAO (Chinese Science Bulletin), 30(1985)2:160--165 (in English)
9. A note on the almost everywhere convergence of Walsh-Fourier series,
北京师范大学学报(理科), 1985, No. 1, 11--16
10. Approximation for continuous periodic function of several variables and its
conjugate function by Riesz means on set of total measure,
Approximation Theory and its Applications, 1(1985)4:19--56
11. Strong summability of multiple conjugate Fourier series,
数学学报, 29(1986)2:156--175
12. Generalized spherical Riesz means of multiple Fourier series,
数学学报, 2(1986)2:178--202
13. Multiple Fourier series and their linear means,
Chinese Quarterly Journal of Mathematics, 2(1987)2:59--68
14. 关于多重共轭 Fourier 级数强求和的进一步讨论, 科学通报, 1987, No. 15, 1124--1127
15. Further discussion on strong summability of multiple conjugate Fourier series,
KEXUETONGBAO (Chinese Science Bulletin) 33(1988)12:971--972 (in English)
16. Approximation behaviour of certain singular integral operators,
北京师范大学学报(理科), 1987, No. 4, 1--8
17. On the convergence of multiple Fourier series,
北京师范大学学报(理科), 1988, No. 2, 18--27
18. 《Bochner-Riesz 平均》(与陆善镇合著), 北京师范大学出版社, 1988
19. H^p 空间的实变理论对逼近问题的应用(与陆善镇合作),
河南大学学报, 1988 增刊, 49--52
20. 《数学分析》第一卷, (俄文原著 V. A 卓里奇, 与周美珂, 邝荣雨, 蒋铎合译)
高等教育出版社, 1988, 北京
21. On the approximation of L^2 -functions by their spherical Fourier sums on set
of full measure,
Approximation Theory and its Applications, 5(1989)4:69--77
22. Strong uniform approximation by Bochner-Riesz means,
Multivariate Approximation Theory IV (Oberwolfach, 1989), 337--342
23. On the rate of convergence of certain summability methods for Fourier integrals
of L^2 -functions(with D. Müller), Arkiv for Matematik, 29(1991)2:261--276
24. Possibility of some basic cosine sums(with G. Brown and D. Wilson),
Mathematical Proceedings of the Cambridge Philosophical Society,
114 (1993)No. 3, 383--391
25. Equiconvergent operator of Cesàro means on sphere and its applications,
北京师范大学学报(理科), 29 (1993)No. 2, 143--154
26. Pointwise convergence of Cesàro means on sphere,
北京师范大学学报(理科), 29 (1993)No. 2, 158--164
27. Approximation by Bochner-Riesz means and Hardy summability(with G. Brown),

- 北京师范大学学报 (理科), 30 (1994), No. 3
28. Strong uniform approximation by Cesàro means of Fourier-Laplace series (with Zhang Pu), 北京师范大学学报 (理科), 30(1994), No. 4, 321---328
 29. Approximation theorems of Jackson type on the sphere (with S. Riemenschneider), 数学进展, Vol. 24, 1995, No. 2, 184---186
 30. Jacobi polynomial estimates and Fourier-Laplace converge (with G. Brown) 数学进展, Vol. 24, 1995, No. 6, 563
 31. Positivity of Cotes numbers at more Jacobi abscissas, (with G. Brown and S. Koumandos) Monatshefte für Mathematik, 122 (1996) No. 1, 9---19.
 32. Positivity of more Jacobi polynomial sums, (with G. Brown and S. Koumandos) Mathematical Proceedings of the Cambridge Philosophical Society, 119 (1996) No. 4, 681---694.
 33. An extension of the Fejér-Jackson inequality, (with G. Brown) The Journal of Australian Mathematical Society, Series A, 62(1997) 1---12
 34. Maximal translation operator on sphere, (with Mabolin) 北京师范大学学报 (理科), 33(1997) No. 1, 43---48.
 35. Jacobi polynomial estimates and Fourier-Laplace convergence (with G. Brown), The journal of Fourier Analysis and Applications, 3 (1997) No. 6 705---714
 36. 《实分析》(与陆善镇合著), 北京师范大学出版社, 1997
 37. Some positive Cotes numbers for Jacobi abscissas (with Chen Wengo), Mathematical Proceedings of the Cambridge Philosophical Society, 123 (1998), 193---198
 38. Strong approximation of de la Vallée Poussin type on the sphere (with Tang Ping), 北京师范大学学报 (理科), (1998) No. 2, 162---167.
 39. A proof of prime AW^* -algebra being primitive C^* -algebra (with Zhang Luchuan), 北京师范大学学报 (理科), (1998) No. 3, 289---291.
 40. On a conjecture of F. Moricz (with G. Brown), Proceedings of AMS., Vol. 126 (1998) 12, 3527---3537
 41. Positivity of basic sums of ultraspherical polynomials (with G. Brown and S. Koumandos), Analysis 18, (1998) 313---331
 42. 球面上的变阶分数次积分 (与洪勇合作), 数学年刊, 20A:1(1999), 27---32.
 43. Дифференциальные свойства сумм одного класса тригонометрических рядов (with S. A. Telyakovskii) Вестник Моск. Ун-та., сер. I, Математика. 1999, No. 1, 24---29
 44. On the positivity of some basic Legendre polynomial sums (with G. Brown and S. Koumandos), Journal of the London Mathematical Society, 59:3 (1999), 939---954.
 45. Approximation of locally integrable functions on the real line (with Zhang Xirong and A. I. Stepanets), Укр. мат. журн. 1999, т. 51, No. 11, 1549---1561.
 46. Some recent progress in Fourier-Laplace analysis on the sphere, 北京师范大学学报 (自然科学版) 增刊, 1999, Vol. 35, 23---44
 47. On approximation of functions on sphere (with Dai Feng), Approximation Theory and its Applications, 15:4, 1999, 50---59
 48. Some constructive properties of functions defined on the sphere (with Wang Sheng), Approximation Theory and its Applications, 16:1, 2000, 26---35
 49. 《Harmonic Analysis and Approximation on the Unit Sphere》(with Li Luoqing) 科学出版社, 2000, 北京
 50. On the Fourier-Laplace a. e. Convergence (with Dai Feng), Approximation Theory and its Applications, 72-81, Ukraine, 2000
 51. 球面上 Fourier-Laplace 级数强可和点的刻画 (与戴峰合作), 北京师范大学学报 (自然科学版) 36:6, 2000, 718---721
 52. Summability of Fourier-Laplace series with the method of lacunary arithmetical means at Lebesgue points (with Dai Feng), Acta Mathematica Sinica, English Series, 17(2001)3: 489---496

53. Fourier–Laplace 分析中用连续模给出的几乎处处收敛条件 (与戴峰合作),
北京师范大学学报, 38 卷, 4 期, 2002, 440–444.
54. On a conjecture of Ditzian and Runovskii (with Dai Feng and Yu Chunwu),
J. Approximation Theory, 118(2002), 202–224.
55. On the absolute (C, α) convergence for functions of bounded variation
(with Yu Dan), *J. Approximation Theory*, 123(2003), 300–304.
56. Fourier–Laplace 级数的缺项平均在 Lebesgue 点处的收敛性(与戴峰合作),
数学学报, 46 卷 (2003), 3 期, 1–4.
57. 球面函数逼近算法研究(余纯武、陈莘萌、王昆扬、戴峰),中国科学 (E) 33: 10 (2003),
924–93
58. Approximation of Hardy space on the unit sphere (Yu Chunwu, Chen Xinmeng, Wang
Kunyang, Dai Feng), *Science in China(F)*, 45:4(2003), 309–320
59. Convergence rate of Fourier–Laplace series of L^2 -functions (with Lin Qin–Cheng),
Journal of Approximation Theory, **128** (2004), 103–114.
60. A note on the equivalences between the averages and the K-functionals related
to the Laplacian, (with Dai Feng),
Journal of Approximation Theory, **130** (2004), 38–45
61. Extensions of Vietoris’s Inequalities I, (with G. Brown, Dai Feng)
数学进展, **34**: 1(2005), 125–127
62. Extensions of Vietoris’s Inequalities II, (with G. Brown, Dai Feng)
数学进展, **34**: 2(2005), 253–255
63. Strong approximation by Cesaro means with critical index in the Hardy spaces $SH^p(S^{p-1})$
($0 < p \leq 1$), (with Dai Feng)
Acta Mathematica Sinica, English series, Vol. 21, No. 2, (2005), 439–448
64. A NOTE ON A PAPER OF H. ALZER AND S. KOUMANDOS,
Journal of Inequalities in Pure and Applied Mathematics, Vol. 7, Issue 2, Art. 46, 2006
